New Royal: a better experience for staff

The new Royal will provide a much better environment for staff as well as patients. Read onto find out more about some key benefits for staff

Better environment to work in

- A much more attractive, easier laid out and **more pleasant** place to work – one of the **most modern** hospitals in the UK
- There will be on-site drop off facilities for public transport – will mean **shorter walks** from buses
- A **large amount of green space** on the site will provide a place for staff to eat, take breaks and enjoy good weather
- **Improved shopping** and dining facilities in the hospital
- Many departments and wards will have **spectacular views of the city**
- There will be **natural light and temperature regulation** – more pleasant for staff and patients
- There will be **more art and colour** around our wards and departments
- **Rest and changing facilities** near to wards and departments means that staff will be able to get changed into their uniforms at work.

A world-class place to work

- Working in a **world-class** environment and an **international** research campus, which will be the **envy of the rest of the UK**
- A chance to work on the **same site as top class labs** and research facilities
- Access to the **latest equipment and technology** to treat our patients – often **better** than in other hospitals
- **State-of-the-art**, multi-disciplinary teaching facilities close to ward areas

A regenerated area – an opportunity

- Likely to have restaurants, shops and other leisure facilities near the hospital as the **whole area is regenerated**
- Working as a key part of the **regenerated** Knowledge Quarter – which has the potential to become a **thriving area** of the city, with **investment** by the Universities and the Liverpool School of Tropical Medicine as well as the Trust
- **Local jobs** and apprenticeship opportunities during construction
